ALL-COUNTY LETTER NO. 92-75

TO: ALL COUNTY WELFARE DIRECTORS  
ALL COUNTY GAIN COORDINATORS  
ALL COUNTY TCC COORDINATORS

Reason for this Transmittal	
<input checked="" type="checkbox"/>	State Law Change
<input type="checkbox"/>	Federal Law Change
<input type="checkbox"/>	Court Order
<input type="checkbox"/>	Clarification Requested by One or More Counties
<input type="checkbox"/>	Self-Initiated by SDSS

SUBJECT: 1992 REGIONAL MARKET RATE CEILINGS

The purpose of this letter is to transmit the 1992 Regional Market Rate (RMR) ceilings for California child care providers. Enclosure I contains the rate ceilings for the 1.5 standard deviations above the mean market cost of care, and Enclosure II contains the rate ceilings for the 75th percentile of the market rates. The RMR survey was completed by the California Child Care Resource and Referral Network (Network) for which they interviewed 13,290 child care providers statewide. The survey data will be utilized by the Greater Avenues for Independence (GAIN) Program, the Transitional Child Care (TCC) Program, and by various programs under the jurisdiction of the California Department of Education (CDE). The 1992 RMR ceilings will become effective October 1, 1992, and will remain in effect until further notice.

Although 13,290 providers were interviewed, after categorizing the data by specific rate units (hourly, daily, weekly and monthly), we continued to have a problem with data fields that were blank. As in last year's RMR's, the Network replaced the county rate with a regional rate when it was necessary to achieve a sample size of at least ten providers. A sample size of fewer than ten providers occurs in two instances: 1) when the provider population in a county is small, and 2) when fewer than ten providers in a county use a specific unit to set their rates (hourly, daily, weekly, or monthly). By utilizing the data from the larger regional sampling, we are assured of a statistically reliable RMR ceiling. The regions were created to include counties with similar geographic, economic and demographic conditions. More information regarding the six specific regions will be available upon request from your Employment Operations Analyst.

The replacement of county rate ceilings with regional rate ceilings does not eliminate situations where counties have less than three providers in a particular type of care. Those rate ceiling with a period (.) show there were less than three providers for a particular type of care in both the county rate survey and the larger regional rate survey. Counties would continue to pay the actual cost of child care in these situations pursuant to Manual of Policies and Procedures (MPP) Section 42-750.333 (c).

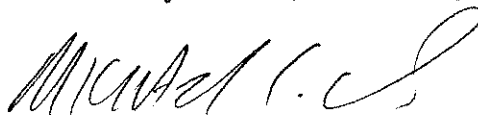

It is important to note that the RMR ceilings represent the maximum each particular program will pay for child care. The GAIN Program will pay for child care costs up to 1.5 standard deviations above the mean market cost of care and the TCC Program will pay up to the 75th percentile monthly rate ceiling. If a provider charges less than the maximum ceiling rate, counties would pay the rate charged. However, should the actual cost of child care exceed the RMR ceiling, the participant/parent would be responsible for the payment of the difference if he/she chooses to utilize such a child care provider.

As in past years, interest was solicited from all counties regarding their desire to have sub-regional rate ceilings established for their county. For the 1992 RMR's, Contra Costa, Riverside, and Ventura requested sub-regionalized rates. These rates are located in the back portion of each enclosure. Again, in instances where there are less than ten providers in a particular type of care, sub-regional rate ceilings are replaced with county rate ceilings or regional rate ceilings as applicable.

As you know, Federal financial participation is available only up to the 75th percentile of the market rates. Child care costs eligible for Federal reimbursement, along with costs above the 75th percentile, must be claimed separately. Refer to All-County Letter No. 91-87 dated August 29, 1991, for claiming instructions.

All counties will be required to utilize the 1992 RMR ceilings as of October 1, 1992. Time has been allowed for counties to make the appropriate changes to policies and procedures, and computer programming systems. Additionally, Notices of Action (NOAs) will need to be completed to notify participants of the changing child care rates. See All-County Letter No. 90-102 for details regarding the appropriate NOAs.

If you have questions or concerns regarding the 1992 RMR ceilings, please contact your Employment Operations Analyst at (916) 657-2367.

MICHAEL C. GENEST  
Deputy Director  
Welfare Programs Division
